

Evacuation plan for students of determination that takes into account their special needs during an emergency

Objective of the plan:

Ensure the safety of students of determination in emergency situations, and ensure their evacuation in a safe and rapid manner in coordination with the administrative and educational staff.

Emergency Team:

- Identify an evacuation officer for each group of students.
- Training teachers and supervisors to deal with people of determination during evacuation.

Classification of students by type of disability:

- Mobility disability: They need wheelchairs or mobility assistance.
- Hearing impairment: They need visual cues or a signal interpreter.
- Visual impairment: They need escorts to help them move.
- Intellectual disability: they need clear and direct guidance.

Equipping facilities:

- Provide wide and barrier-free walkways.
- Develop clear and luminous signals.
- Providing special evacuation chairs for the upper floors.
- Allocating nearby and suitable exits for people of determination.

During evacuation:

- The warning is given using both audiovisual means.
- Evacuation of students of determination starts first, with adequate support provided.
- Each student is accompanied by an instructor.

Rally point:

- Identify a safe point that is close and easy to access.
- Ensure the presence of all students through the attendance lists.

Training and tests:

- **Conduct periodic evacuation drills covering different scenarios.**
- **Involve students and parents in awareness and training.**
